

## Empire Guarantee & Profiles

We feel so strongly about the beauty and durability of our natural granite products that we will guarantee them against any defects in material and/or workmanship for 10 years. However, this warranty will not be honored with evidence of misuse, abuse or factors beyond our control including but not limited to: intentional chips, stains that have occurred due to improper or negligent maintenance, settlement of cabinets and/or floors, any problems as a result of installation by anyone other than an employee or qualified subcontractor of Empire Marble & Granite.

This guarantee is transferable with the sale of the home.

Empire Marble &  
Granite Company

# BEAUTIFUL.....

The Empire Companies have been providing the highest quality of beautiful stone products for the central Virginia area for over 60 years. We bring all of this knowledge and craftsmanship to your project, whether it's a small vanity top, kitchen counter or an entire bathroom suite. Empire Marble and Granite's experience is also evident in the installation phase. Close coordination with the builder, cabinet maker, plumbing and appliance suppliers is critical to the success of the job.

Dakota Mahogany

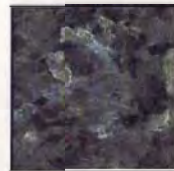

# ELEGANT.....

With over 400 granites and marbles from which to choose, coordination with your decorating scheme couldn't be easier. Whether you are looking for vibrant, bright colors with waves of movement or a more subtle, subdued earth tone, natural stone can make that special difference in your home.

Giallo Veneziano

Violetta

# PRACTICAL.....

Granite is the ideal surface for any home or business application. Place a hot casserole pan from the oven or burner directly on the stone; use the sharpest cutlery for food prep without a cutting board. Don't try this on a man-made counter top! In fact, you will never need any kind of "repair kit" after installation. And with the glass-like polished surfaces, cleaning and sanitizing are the easiest jobs in the kitchen. And best of all, these features will last a lifetime. After all, most of the stones with which we work are already billions of years old.
